*One of the most important international livestock conferences active today is coming to Idaho in 2017. The 71st annual meeting of the International Livestock Identification Association (ILIA) will be held July 16-20, 2017 at the Riverside Hotel in Boise Idaho.*

**SAVE THE DATE JULY 16TH- 20TH, 2017**

The International Livestock Identification Association is dedicated to the protection, promotion, and preservation of livestock identification and traceability inspection in North America. The livestock industry is a critical industry in North America and generates enormous economic impact both in job creation and revenue generation. The North American livestock industry and this ILIA Association are dedicated to supplying wholesome and safe food to over 528,000,000 million people in Canada, United States and Mexico.

ILIA strongly believes that our mission should be to help educate the general public, as well as local, state/provincial, and federal officials on the critical importance of the livestock industry in North America. ILIA is an organization of member states, provinces, and Native American Tribal Nations where livestock brand recording, identification, and inspections are recognized by legislation.

*ILIA encourages and supports enforcement of livestock ownership, identification and animal disease traceability legislation.*

*The ILIA will assist any agency, association, industry group, or individual producer in their efforts to protect, promote, and preserve livestock identification and inspection.*

*The ILIA is headquartered in Helena Montana. It is governed by an elected Board of Directors. It holds an annual conference in July each year, hosted by different states.*

*Idaho would like to seek your sponsorship in support of the upcoming 2017 ILIA conference.*

*Your sponsorship will be used for various costs of the conference. All businesses and individuals donating will be acknowledged.*
